

## 联合国国际学院校外评审员制度

### External Examiners System

**THE EXTERNAL EXAMINERS SYSTEM** ensures that the standards of the degrees awarded to UIC students by HKBU are maintained at a level prescribed by the HKBU Senate and that the examination and assessment systems are fair. Therefore, External Examiners must be teachers at HKBU recommended by the Deans of HKBU. If no appropriate experts are available at HKBU, then scholars from other universities in Hong Kong may be appointed on the recommendation of the appropriate Deans of HKBU. All UIC programmes are required to appoint External Examiners in their third year of operation.

The External Examiners' responsibilities are to:

- review teaching and assessment materials of the relevant programme to ensure quality of the materials and compliance of the programme to the QA processes;
- write a report to UIC stating their observations/recommendations on the above as appropriate;
- arbitrate or adjudicate on Honors classifications or academic failure cases on need basis;
- visit UIC to exchange views with its faculty members and meet with its students if deemed necessary.
